I'm a Brazilian software engineer based in London. I've interned at the legal consulting firm LawAdvisor and graduated from the full-stack bootcamp Makers Academy I am proficient in various programming languages, frameworks, and skills, including Ruby on Rails, JavaScript, React, Elixir, Phoenix, TDD, OOP, CSS, and HTML.

WORK EXPERIENCE

LawAdvisor Ventures

March 2022 – June 2022

Junior Software Engineer

Lisbon, Portugal

- Created (CRUD) operations using the framework Phoenix and the language Elixir
- Developed CRUD applications using Phoenix and Elixir, RESTful API, and databases like PostgreSQL
- Processed projects using Docker containers

Tasca Kome

March 2017 – August 2021

Restaurant Manager

Lisbon, Portugal

- Managed all the restaurant's dining room, bar, and administrative responsibilities, while also supervising staff, which consisted of up to 15 employees at a time
- Communicated regularly with twenty local suppliers to ensure the restaurant was consistently stocked, while also negotiating discounts of up to 15% on key items

EDUCATION

Makers Academy

March 2023

Full-Stack Software Engineering Bootcamp

London, England

- Graduated from Makers Academy, a selective, 16-week, full-time software engineering bootcamp
- Worked with languages including React, Ruby on Rails, JavaScript, and PostgreSQL, while developing skills such as TDD and OOP in an Agile environment

PROJECTS

Step-Free Gigs

March 2023

- Designed a mobile app to find wheelchair-accessible gigs in London and provide directions to the venue
- Utilized React Native, Expo, Node.js, Express.js, Jest

Acebook

February 2023

- Built a social media website that enables users to sign up; login; write, edit, and delete their own posts; like other posts; and add other users as friends
- Utilized React, JavaScript, Jest, MongoDB, Node, Cypress, Express.js, HTML, and CSS

Makers BnB

January 2023

- Developed a website that enables users to sign up; login; view properties available to book; browse booking availability; request to book; and upload their own properties
- Utilized Ruby, Active Record, RSpec, Rake, HTML, and CSS
